Medifax POS™

Easy to use for Patient Eligibility Verification and Credit Card Authorization

Medifax EDI℠
Your Healthcare Connectivity Partner

The Medifax® Point-of-Service (POS) terminals are easy to use for patient eligibility verification and are ideal for front-end locations such as registration areas, emergency rooms, admitting, and other areas where space is a consideration. With the Medifax POS, you can verify eligibility for Medicaid, Medicare, and numerous commercial insurance plans. You can verify eligibility in seconds, receive a printed record of the response, and have a quick, simple, and accurate way of classifying patients during normal registration. You can also add credit card authorization on the same machine saving precious workspace and money.

The Medifax POS terminal is flexible and can be used to verify patient eligibility with or without a plastic card 24 hours a day/7 days a week. Each terminal is equipped with a card swipe and internal modem. Numerous patient searches are available when a card is not presented. The terminal can also support an optional keyboard, instantly speeding up the rate at which you conduct name searches.

The Medifax POS is an ideal solution for all types of healthcare providers and ancillary service providers.

Features & Benefits

- Easy to use
- Must faster than verifying eligibility over the phone
- Space-saving design
- Printed record of eligibility response
- Saves you money
- Supports a plethora of health plans for eligibility verification including your state Medicaid, surrounding state Medicaid, Medicare, and commercial plans
- Credit card authorization
- Eliminates human error
- Improves patient information
- Easy to read 16-character display prompt

"I would like to take this time to commend you on the availability of patient information through your Medifax POS product. Today we have added UHC, Aetna, Cigna, and Humana to our services. This is going to save my staff valuable time that is needed to care for our patients."

Lisa Nelson
Office Manager
Vernon L. Johnson, M.D. Obstetrics & Gynecology

Through innovative products and services, *Medifax EDI* is enabling healthcare providers to improve cash flow, integrate healthcare information, reduce costs and reduce patient registration time.
